RAJESH SIRRI

SAP Full Stack ABAP Developer | S/4 HANA Expertise | BTP Full Stack Developer

+1-(470)-568-9568 rajeshsirri@outlook.com www.linkedin.com/in/rajesh-sirri Alpharetta, GA

SUMMARY

SAP Certified ABAP Cloud Professional with 13+ years of experience delivering **S/4HANA, RAP ABAP, and SAP BTP** solutions across large-scale implementations and support projects in the US market. Strong expertise in Clean Core compliant developments, **CDS Views, OData V4 APIs, Fiori Elements,** and **EWM RF**. Proven track record in S/4HANA migrations, code remediation, and enterprise system integrations.

CERTIFICATIONS

- **SAP Certified Associate – Back-End Developer – ABAP Cloud**
- Managing Clean Core for SAP S/4HANA Cloud – Record of Achievement
- Setting Up an ABAP Environment on SAP BTP – Record of Achievement
- Learning the Basics of ABAP Programming on SAP BTP – Record of Achievement
- Data Migration to SAP S/4HANA

CORE SKILLS

SAP ABAP & S/4HANA

- ABAP on HANA, RAP ABAP, CDS Views (VDM), AMDP, OData V4, Clean Core
- SPAU, SPDD, ATC, SCI, Code Remediation, S/4HANA Migration

SAP BTP & Fiori

- SAP BTP, Business Application Studio (BAS), SAP Web IDE
- Fiori Elements, SAP UI5
- REST and SOAP–based API development

Integration & Data

- IDOCs, BAPIs, RFCs
- Data Migration Cockpit, LTMC
- XML and JSON–based integrations

Modules & Domain Expertise

- EWM (RF Screens, PPF Actions)
- FI/CO (AR, AP), OTC, P2P
- SD, MM, HR ABAP Developments
- SRM, CRM, BI/BW

Programming Languages & Tools

- Languages: ABAP/4, SQL, SAP UI5, HTML, JavaScript, CSS
- Tools: SAP GUI, Eclipse (ADT), HANA Studio, SAP BTP BAS, VS Code

EXPERIENCE

Savancys- Senior Software Engineer

12/2025 – Present Alpharetta, GA

Client Engagements:

Client: Kiewit (Brown Field: S/4 HANA Implementation-2023)

12/2025 – Present Alpharetta, GA | Omaha, NE (Hybrid)

- Continuing the same Kiewit S/4HANA engagement (initiated under Techwaukee), delivering RAP ABAP, SAP BTP, and Clean Core–compliant solutions, and providing technical Leadership for ongoing enhancements and optimizations.

TechWaukee Solutions LLC(US) – Senior Software Engineer.

04/2025 – 11/2025 Alpharetta, GA

Client Engagements:

Client: Kiewit (Brown Field: S/4 HANA Implementation 2023)

03/2025 – 11/2025 Alpharetta, GA | Omaha, Nebraska (Hybrid)

- Designed, developed, and deployed **RAP-based OData V4 APIs** for Equipment Management, Measurement Points, and Pricing Condition records, enabling seamless integration with external partners including BearingPoint.
- Built **RAP-based Fiori Elements applications** for **Financial Lease Price Calculation (FLPC)**, including List Report and Object Page, with **Excel-based mass upload extensions** using SAP Business Application Studio (BAS) to support high-volume data processing.
- Developed **RAP Custom Entity–based reports** for high-volume condition record processing, incorporating **background job scheduling** for scalable execution.
- Created optimized **CDS Views** to extract CRM opportunity and activity metrics supporting **data migration and analytics**.
- Implemented **certificate lifecycle automation** by fetching PKCS#12 files from external APIs, converting them to PSE using **SXPG_COMMAND_EXECUTE and SM69**, and securely uploading certificates to **STRUST** via custom ABAP programs.
- Developed and enhanced **EWM RF screens** for packing and repacking processes using the SAP RF Framework to improve warehouse efficiency.
- Led **S/4HANA code remediation initiatives**, refactoring legacy ABAP objects to align with **RAP standards and Clean Core principles**.
- Enforced development standards and code quality through **ATC and SCI checks**, improving performance, maintainability, and upgrade readiness across the landscape.

Client: Bloomberg US (Support: S4 HANA SFINANCIALS-1605)

12/2023 – 01/2025 Alpharetta, GA | Remote (US)

Location: Remote (US) Role: Senior ABAP Consultant

- **Led** the development and support of critical OTC processes.
- **Created** reusable OO classes to streamline OTC workflows & **developed** custom reports using OO ABAP to enhance data visibility and analysis.
- **Integrated** SAP with Bloomberg Terminals through API development.
- **Implemented & Troubleshooted** workflow solutions for inquiry, quote, and customer processes and resolves workflow-related issues.
- **Leveraged** CDS views, table functions and AMDP to optimize OTC data management.
- **Designed and implemented** RESTful APIs for efficient data handling and integration.

Client: Swatch Group US (S/4 HANA Implementation & Code remediation & Support (ECC))

07/2023 – 12/2023 Weehawken, NJ

Location: Weehawken, NJ(USA) Role: ABAP Team Led

- Developed custom reports using **OO ABAP and CL_SALV for several reports.**
- Successfully **migrated** customer data using **data migration cockpit**.
- **Led** the design and development of interface objects for customer service notification creation & **Integrated** SAP with external systems using **SOAP and RESTful APIs.**
- Created **CDS views, Table Functions & AMDP** for reports and analytics view for the RAP ABAP.
- Implemented **Fiori** applications using **RAP** based **BTP BAS** for reports and analytics and for KPI dashboards & Enhanced user experience with custom screen modifications and **Fiori UI5** applications developed several **OData** services to support.

Client: CFG - Clemens Food Group (S/4 HANA SFINANCIALS-1503 Support)

04/2023 – 06/2023 Remote (US)

Location: Remote (US) Role: Senior ABAP Consultant

- Developed reusable global classes for efficient code reuse & created custom reports using **OO ABAP** and **CL_SALV**.
- Led the design and development of interface objects by **IDOC's & REST** APIs for purchase order details.
- Implemented custom solutions for **EWM RF & PPF** process for several operation and physical inventory process & Custom fields for EWM Transaction.
- Enhanced **FICO** functionality with **BTEs**, **substitutions**, and **validations** & other **enhancement** objects like **BADI**, **User Exits**, **Customer Exits**, **VOFM** Routines.
- Integrated SAP with external systems using **RESTful APIs**.
- Successfully migrated using SPAU and SPDD.
- Worked **CDS Views & AMDP** procedures, **CDS VDM** & **Fiori** Elements.
- Worked on **Soap, ODATA, Rest based APIs** based on third party application for MM & SD modules for creation and data fetching. **OData** for development to support **Fiori** applications.

PwC India- Principal Consultant.

03/2020 – 04/2023 Bengaluru

Client Engagements:

Client: MEIL - Megha Engineering & Infrastructure Limited (S/4 HANA Implementation)

Location: Hyderabad, TG(IN) Role: ABAP Team Led

- **Led** the technical team and served as solution architect.
- Developed **OO ABAP** solutions for MM Store Cockpit and SD Dashboard and its related **OData** services for **Fiori Apps**.
- Integrated **EWM** with Warehouse Control Systems & Customized standard **RF** screens for business requirements.
- Created **Fiori elements**-based list reports using **CDS** Views and **CDS VDM**.
- Worked several enhancements on Screen modification and custom fields additions and custom validation using **BADI's, User exit, Screen Exit, Customer Exit, BTE, FI substitutions, & validations, VOFM** Routines.
- **Developed** reusable global Classes for multiple modules like **SD, FI, MM, PS, HR, PP, QM, ETM, TRM, EWM** & created OO reports for several objects for all modules.
- Modify **user exits and enhancements** for equipment **reservation, rental, and maintenance & custom fields** in **ETM** screens (transactions like J1B3N, J1B1N)**.**
- Develop **ALV reports** for **equipment utilization, rental status, and cost tracking in ETM**.
- Create **CDS Views & AMDP** for **real-time analytics** on equipment lifecycle & Develop **OData Services** to integrate **SAP ETM with Fiori/UI5 applications**.
- Implement **RFCs, BAPIs, and IDocs** for external system integration (e.g., **contract management, finance, and logistics**) ETM.
- Implemented Fiori applications using **BTP BAS**. Worked on **BTP** objects for **Fiori** and **RAP** Development
- **Integrated** SAP with banking systems using **REST** APIs & for Invoicing & Receipts posting via **REST** APIs.
- Managed **project discussions**, **budgeting**, and **team** resizing.
- Designed and implemented **interfaces** for invoice posting and receipts.
- Developed **SOAP**, **RFC**, **IDOC** and **proxy** classes for third-party integration & successfully implemented production order and process order creation and confirmation.

Client: THCM - (S/4 HANA Implementation & Code remediation & Support)

Location: Bengaluru, KA(IN) Role: ABAP Team Led

- **Developed and customized EWM RF screens** for the Inbound process, focusing on **Putaway** functionality, improving warehouse operations.
- Designed and customized **EWM RF screens** for **Internal Bin-to-Bin Transfer**, enhancing internal material movement efficiency.
- Developed a custom **TCode for HU Label Printing**, automating the printing process for handling units in the warehouse.
- Developed/Customized changes to /SAPAPO/PE_RUN for **SPP**.
- Developed and modified the custom & standard reports in the **SPP**.
- Worked on the mass forecast reports.
- Worked on the report on safety stock calculation option for the combined calculation of the **EOQ (Economic Order Quantity)** & **SFT (Safety Stock)**.
- Worked on BADI for stability rule assignment in **BOD** & **DRP**.
- Improvement on the reports Assignment of Products to a **BOD**
- Created **Object-Oriented Global Class methods** to retrieve and post transactions related to EWM processes, ensuring accurate data handling, and posting.
- Modified **Standard RF screens** to meet business requirements, tailoring the user interface to align with specific operational needs.
- Actively involved in **interface design and implementation** using **RESTful APIs**, ensuring secure and efficient communication with external systems.
- Worked on **SOAP services** to fetch production and process order details, integrating real-time production data with other business applications.
- Developed a **SOAP service** to fetch stock details from SAP, improving inventory visibility and tracking.
- Designed and implemented multiple **OData services** for **SAP Fiori** reports and dashboard applications, enhancing user experience and data accessibility.
- Identified enhancement changes for upgrade objects using SPAU& SPDD.
- Code analysis and changes to the any implicit enhancements and migrated to upgraded versions.
- **Led a team** of developers, providing technical guidance and monitoring progress to ensure timely and quality delivery of required objects.

Client: Indo Nissin (S/4 Brownfield & Code Remediation & Support)

Location: Bengaluru, KA(IN) Role: ABAP Team Led

- Developed custom **OO ABAP** reports for planned independent requirements and stock movement.

- Implemented **OData** services for P2P dashboard integration for **Fiori** Apps.
- Created custom **RF** transactions to improve performance.
- **Led** the development and adoption of global **EWM** templates.
- Provided **post-go-live** support for **EWM** implementations.
- Defined the roadmap for implementing advanced **EWM** functionalities.
- **Configured** and **optimized** handling unit (HU) processes.

Client: Katerra India (S/4 HANA Implementation)
Location: Bengaluru, KA(IN) Role: ABAP Team Led

- **Developed** and supported a **Purchase Requisition (PR) Dashboard** using **OO ABAP**, streamlining procurement processes and enhancing visibility into requisition statuses.
- **Designed** and implemented a **Vendor Quotation Ranking** system using **ABAP Excel with OO ABAP**, enabling automated ranking of vendor quotations, improving the decision-making process for procurement.
- Created a **SOAP service** to fetch the **Purchase Quotation List** based on various selection criteria, improving data retrieval and integration with external applications.

Rhein Brücke IT Consulting (India)- Senior ABAP Consultant.
02/2019 – 03/2020 Chennai, India
Client Engagements:
Client: BCS (Body Control Systems Originally part of ZF, German) (ECC Support)
Location: Chennai, TN(IN) Role: Senior ABAP Consultant

- **Performance** analysis of Objects and find unnecessary executions in database and Data Conversion process for handling high volumes of data.
- Provide **data analysis**, **data migration**, **interface support**, and technical support as necessary.
- Work closely with parts business to confirm and develop business requirements definition.
- MRP Waterfall report.
- Solmon changes Mail forms custom enhancements.
- **Workflow (BUS2081)** – MIRO As part of the team built the invoice approval workflow process for organization.
- As part of workflow handled invoice parking – Invoice Clarification – GR Request – Invoice Release – Invoice price block removal.
- As part **created & support** report for invoice approval **workflow process** – Workflow status report dashboard – Invoice accruals
- (parked status) – Custom Deadline Monitoring report – Vendor Dashboard Report (Vendor Spend Analysis Report).
- Daily **workflow administration** – check & solve workflow in errors, check & solve missing agents in workflow, Manage agent assignments.
- Worked on Soap & Rest APIs for different modules like FI, MM, SD, PP, PM.

Techwaukee Solutions (India) – Senior ABAP Consultant.
09/2016 – 01/2019 Bengaluru, India
Client Engagements:
Client: KIMS – Kerala Institute of Medical Science (S/4 HANA Implementation)
Location: Chennai, TN(IN) Role: Senior ABAP Consultant

- **Developed** Smartforms for **inventory warehouse labels, enhancing material traceability**.
- Created **CDS** views for data modelling and analysis in **SD**, **MM**, & **FI** modules. Consuming **CDS** views in **ABAP** to **OO ALV** created reports, such as the purchase register report.
- **Integrated** SAP with external systems using **outbound** and **inbound** proxies.
- **Implemented** custom HR processes using **SOAP** services.

Client: Tenshi Life Sciences Private Limited (S/4 HANA Brownfield & Support)
Location: Bengaluru, KA(IN) Role: Senior ABAP Consultant

- **Enhanced** PP, QM, and WM modules with **custom** developments.
- **Created** custom gate pass scenarios in **module pool**.
- Developed **Smartforms** for SD module.
- **Provided** technical Ledership and coordination.
- **Integrated** SAP with external systems using **SOAP** services.
- Developed **OData** services for **Fiori** applications.
- As part of the Upgrade activities finding the obsolete code and any FM's/BAPIs and replaced.
- Fixed codes & bugs as per upgrade objects.

Client: Arvind Lifestyle Brand Limited (AFS) (ECC GST-Implementation)
Location: Bengaluru, KA(IN) Role: Senior ABAP Consultant

- Developed **Smartforms** for **customer invoices**, **credit memos**, and **Accounts Receivable Customer** statements.
- Created **OO ALV** reports for **MM**, **SD**, and **FI** modules.
- Worked on Modules like MM, SD which bound for AFS services and related functionalities.
- **Integrated** SAP with external systems using **OData** and **SOAP** services for Purchase order creation, GR Process & Service order creation for **Fiori** related objects.

Client: AL – Ashok Leyland (ECC CR & Support)
Location: Chennai, TN(IN) Role: Senior Consultant

- **Developed** a comprehensive DSMI report for dealer sales incentive management.
- **Automated** data upload and processing using **BAPI**.
- Created a **dynamic AR matrix** report using **OO ABAP**.
- **Designed** and **implemented** a vendor payment dashboard with email notifications.
- **Enhanced** MIGO transaction with custom vendor and employee details. Created custom forms for email notifications.

Verge Systems (India)- SAP ABAP Consultant – Jun 2011 to Aug 2016
06/2011 – 08/2016 Chennai, India

Client Engagements:

Client: Coromandel International & EID Parry – Murugappa Group (ECC CR & Support)
Location: Chennai, TN(IN) Role: Senior Consultant

- **Developed** reports for vendor and customer master data download.
- **Automated** document **posting** and **reversal** processes.
- **Implemented email** notifications for vendor changes.
- **Integrated** SAP with external systems using **RFCs**.
- **Created** custom solutions for STO and sales order processing.
- **Designed** and **implemented** a customer complaint management process using **MPP.**
- **Enhanced** SAP functionality using **BADIs** and **user exits**.

Client: TVS Infotech Ltd (ECC Support)
Location: Chennai, TN(IN) Role: Senior Consultant

- **Developed** custom **OO ALV** reports for inventory analysis, sales quotation details, and AR/AP data.
- **Optimized** slow-running reports for improved **performance**.
- **Created BDC** programs for data migration and automation.
- **Enhanced** SAP functionality with custom fields, BADIs, and user exits.
- **Developed** custom programs for claims management and reporting via Module pool programming.
- Created **Smartforms** for quotation and credit notes.

EDUCATION

Master's Degree in VLSI Design
VelTech Dr.RR & Dr.SR Technical University, Chennai-India
09/2009 – 05/2011 Chennai (IN)

BTech in Electronics & Instrumentation Engineering
Vaagdevi College of Engineering (JNTUH)
09/2005 – 04/2009 Warangal (IN)

PASSIONS

Innovation in ERP Systems
Passionate about leveraging SAP technology to create efficient and scalable business solutions.

Mentoring in Tech
Committed to guiding aspiring developers and fostering an environment of continuous learning and growth.
